```javascript
const router = require("express").Router();
const Student = require("../models/Student");

// Add student
router.post("/", async (req, res) => {
  const student = new Student(req.body);
  await student.save();
  res.json(student);
});

// Get students
router.get("/", async (req, res) => {
  res.json(await Student.find());
});

// Delete student
router.delete("/:id", async (req, res) => {
  await Student.findByIdAndDelete(req.params.id);
  res.json({ message: "Deleted" });
});

module.exports = router;
```
